

St. Moritz Wood Blinds are crafted from only the finest quality North American basswood in a full range of rich designer colours and warm wood tones:

- Available in 2" slat in both paints and stains.
- Slat ends are completely sealed in the finishing process to provide a finished look.
- Constructed from a strong resilient wood which is an excellent insulator, thus reducing energy costs.
- Low profile headrail with crash proof cordlock.
- Cord Lock: Ease of operation due to design.
- Colour coordinated wood tassels.
- Cord tilt standard.
- Optional wide width solid and decorative cloth tapes are available in the latest colours and designs.
- Decorative moulded wood valance is standard. Option to upgrade to Geneva Valance on "Grid A" at a surcharge.
- Standard return 3 1/2" deep.
- Specialty shapes and sizes available.
- Extension brackets and hold down brackets are available upon request.
- Trapezoid bottom rail offers tight slat closure and sits cleanly on the window sill.
- Motorization available.
- Routless privacy feature is optional. Notched slats block out the light offering total privacy (regular rout holes are standard).
- Limited Lifetime Warranty.

Wood is a natural product and slight imperfections in finish and colour are normal characteristics. Stain may vary in intensity due to differing grain patterns and/or stain penetration. Maxxmar cannot guarantee dye lots.
